Well, Batman is a right-wing superhero, his superpower is being mindbogglingly rich and the  
owner of a vast manufacturing/business empire.

I've been watching Badmouse on youtube lately and it seems like he's become some kind of  
Maoist. \*shudders\*

Oh god Maoism is one of the worst tendencies ever, the first exposure I ever had to it was the  
RCPUSA. Maoists unironically supported the Pinochet regime after Zhou Enlai normalized  
relations with the US. Good comrades don't let comrades become Maoist.

My uBlock tells me no requests blocked for this page. Is the domain leftist.site whitelisted (green)? I promise I'm not running any coin miners or shady javascript.

Just whitelisted it but I still can't see my picture. Deactivated U block and still nothing I'm on FF so it must be something up with that.

I am using Firefox Quantum 65.0.1, and I have uBlock Origin, NoScript and Privacy Badger installed and running. Works on two of my computers (same configuration). This is what your post looks like to me: <https://i.imgur.com/tNxxQ9k.png>

I've just checked it on Chromium (with uMatrix installed and running) and the attachment appears the same way.

Have you tried a different browser?

But do you see the image when opening it?  
Also I only have IE and I don't want to touch it.

Yeah, I do. It is just a link to: <https://leftist.site/index.php?t=getfile&id=27&>

When I click those links I get a blank page. I've tried firefox, tor browser, chrome, microsoft edge... I have a script manager in firefox but aside from that I shouldn't have anything that disables picture attachments. Oh well. I've just gotten used to not using image attachments.

Haha and now you tell me? :d Alright, I will look into it. I just can't reproduce the problem. I just tried on firefox on my phone and it worked without an issue.

Even if you click on this link <https://leftist.site/index.php?t=getfile&id=27&> you get a blank page?

---

I thought it might have something to do with user groups, but even when I'm logged out I can see the picture. This is really strange. I thought it might be something to do with my IP being whitelisted (even though I did not do any kind of IP filtering for images or anything else), but I can see the pictures when I check it from my phone on 4G. I just did airplane mode to get a new IP assigned, and it works normally.

No mames estoy harto de la vida. Hoy a medio día pasaba por la esquina donde vivo y vi un asalto. Hablé a 911 pero seguro que no va a ver ninguna investigación. Después tuve que ver un cliente y él llegó tarde porque hubo manifestación. Hace rato mi esposa me dijo que su ex-jefe la está difamando con varias personas y echando la culpa a ella por una extorción que pasó hace 2 meses. Luego creo que Dios me está castigando con esta pinche vida de mierda. Solo quiero ganar un poco de dinero y vivir bien pero no me deja por un momento estar en paz. Desmadre total. ./
